

# Pedal Resistance Band with Handle

User Manual, Exercise Guide, and Safety Instructions

**Designed for daily stretching, yoga-inspired movement, light resistance training, and home workout routines.**

Important: Read all instructions and safety warnings before use. This product is intended for general fitness use only. It is not a medical or rehabilitation device.

# 1. Product Overview

This pedal resistance band with handle is a compact fitness accessory designed for home workouts, stretching, yoga-inspired movement, and daily fitness routines. It combines a cushioned foam grip handle, flexible TPE resistance tubes, PP foot pedals, and textured foot surfaces to support smooth, controlled pulling movements.

The product is suitable for light strength training, core engagement, arm curls, seated leg stretching, and upper-back stretching. It is best used on a flat indoor surface such as an exercise mat, yoga mat, carpet, or clean floor.

## 2. Product Parts and Picture Descriptions

Use the product images as a visual reference for correct part identification. The purple-and-yellow design includes the following key components:

### Foam Grip Handle

The soft foam handle provides a cushioned hand feel and helps improve comfort during repeated pulling movements. The textured surface is designed for a secure and comfortable hold.

### Flexible TPE Tubes

The elastic tubes provide smooth resistance during controlled pulling and returning movements. They should stretch evenly without twisting or knotting.

### PP Foot Pedals

The foot pedals help position the feet during seated, standing, or kneeling movements. The arched structure helps keep the feet aligned while the handle is pulled.

### Textured Foot Surface

The ribbed pedal surface increases contact between the socks or shoes and the pedals for more stable foot placement during each exercise.

Image guide: The close-up panels show the foam handle, foot pedals, and tube structure. Use these views to confirm the correct hand and foot placement before starting your workout.

### 3. Before First Use

- 1 Inspect the handle, tubes, and pedals. Do not use the product if any part is cracked, torn, loose, frayed, or damaged.
- 2 Confirm that the tubes are properly connected to the handle and the pedal base.
- 3 Use the product on a flat, clean, dry surface with enough room around your body.
- 4 Wear socks or athletic shoes that provide stable contact with the pedals.
- 5 Start with slow, controlled movements until you understand the resistance and range of motion.

Recommended setup: an exercise mat, yoga mat, carpet, or another flat indoor surface. Avoid wet, slippery, uneven, or elevated surfaces.

### 4. Quick Start Guide

- 1 Place the product on a flat surface.
- 2 Put both feet under or into the foot pedals, depending on the exercise.
- 3 Hold the foam handle with both hands.
- 4 Pull slowly and keep the tubes aligned.
- 5 Return slowly to the starting position. Do not let the handle snap back.
- 6 Repeat with steady breathing and smooth, controlled movement.

## 5. Exercise Guide with Image Descriptions

### One Band, Multiple Moves

For stretching, yoga and daily home workout routines.

#### Core Crunch

Sit on a mat with your knees bent and feet secured in the foot pedals. Hold the handle with both hands and pull toward your upper body while lightly engaging your core. Keep the motion controlled and avoid jerking.

#### Seated Leg Stretch

Sit with your legs extended forward and feet secured in the pedals. Hold the handle and gently pull while keeping your back upright or slightly leaned back. Use a comfortable range of motion.

#### Standing Arm Curl

Stand with both feet placed securely on the foot pedals. Hold the handle with both hands and pull upward toward your chest using a slow curling motion. Keep your elbows close to your sides.

#### Seated Upper Back Stretch

Kneel or sit on your heels with the foot pedals secured near your feet. Hold the handle behind your head and move slowly through a controlled upper-back or shoulder stretch.

# 6. Resistance Options

Different tube options may provide different resistance levels. Resistance values are approximate and may vary slightly due to material elasticity, measuring method, pulling angle, and user technique.

### Choose Your Resistance Option

**6-Tube**  
Approx. 45 lb  
Light

**8-Tube**  
Approx. 60 lb  
Medium

**10-Tube**  
Approx. 75 lb  
Strong

#### Key Product Information

**Materials:**  
NBR + PP + TPE

**Package Size:**  
20.5 × 6 × 26 cm

**Use For:**  
Home Workout, Yoga, Stretching

Resistance values are approximate.

Manual measurement may vary slightly.

| Option  | Approx. Resistance | Suggested Use                                            |
|---------|--------------------|----------------------------------------------------------|
| 6-Tube  | Approx. 45 lb      | Light resistance for beginners and gentle stretching.    |
| 8-Tube  | Approx. 60 lb      | Medium resistance for daily fitness routines.            |
| 10-Tube | Approx. 75 lb      | Stronger resistance for users who prefer higher tension. |

Note: Resistance values are approximate. Manual measurement may vary slightly.

## 7. Recommended Use Scenarios

### Home

Use in your living room, bedroom, or home workout area for daily movement and stretching.

### Office

Use during short movement breaks only when you have enough space and a stable chair or floor surface.

### Studio

Use as an add-on resistance tool for stretching, yoga-inspired movement, and light strength practice.

### Travel

The compact design can fit in a gym bag or travel bag. Always inspect the product after transport and before use.

## 8. Safety Precautions

For safe and comfortable use, follow these precautions every time you exercise with the product.

- 1 Inspect the tubes, handle, and foot pedals before each use. Do not use the product if any part is cracked, torn, loose, or damaged.
- 2 Use slow, controlled movements. Do not overstretch the tubes or release the handle suddenly.
- 3 Keep your face and eyes away from the direction of stretched tubes.
- 4 Use the product on a flat, stable surface. Avoid slippery, uneven, wet, or elevated surfaces.
- 5 Do not use the product with sharp objects, rough surfaces, or near high heat.
- 6 Keep children and pets away during use. This product is not a toy.
- 7 Beginners should start with short sessions and light tension. Stop immediately if you feel pain, dizziness, or discomfort.
- 8 Do not stand on unstable furniture, chairs, beds, or raised surfaces while using the product.
- 9 Do not wrap the tubes around the neck, head, or any body part in a way that may cause injury.
- 10 This product is intended for general fitness use only. It is not a medical or rehabilitation device.

## 9. Care and Maintenance

Wipe the product with a soft, damp cloth after use. Keep it dry before storage. Do not soak the product in water. Do not use bleach, harsh cleaners, or alcohol-based cleaning products on the foam handle or tubes.

Store in a cool, dry place away from direct sunlight, heat, and sharp objects. Do not place heavy items on top of the tubes or foam handle.

After use, gently gather the tubes without twisting or knotting them. Place the product in a dry storage area or bag.

## 10. Important Notes

- This product is suitable for stretching, light resistance training, yoga-inspired movement, and home workout routines.
- Workout experience and results vary depending on individual habits, frequency, and technique.
- If you are pregnant, elderly, recovering from injury, or have any health concerns, consult a qualified professional before use.
- Always use the product within your comfortable range of motion.

### Customer Reminder

Keep this manual for future reference. Review the safety instructions regularly, especially before using the product in a new exercise position.
